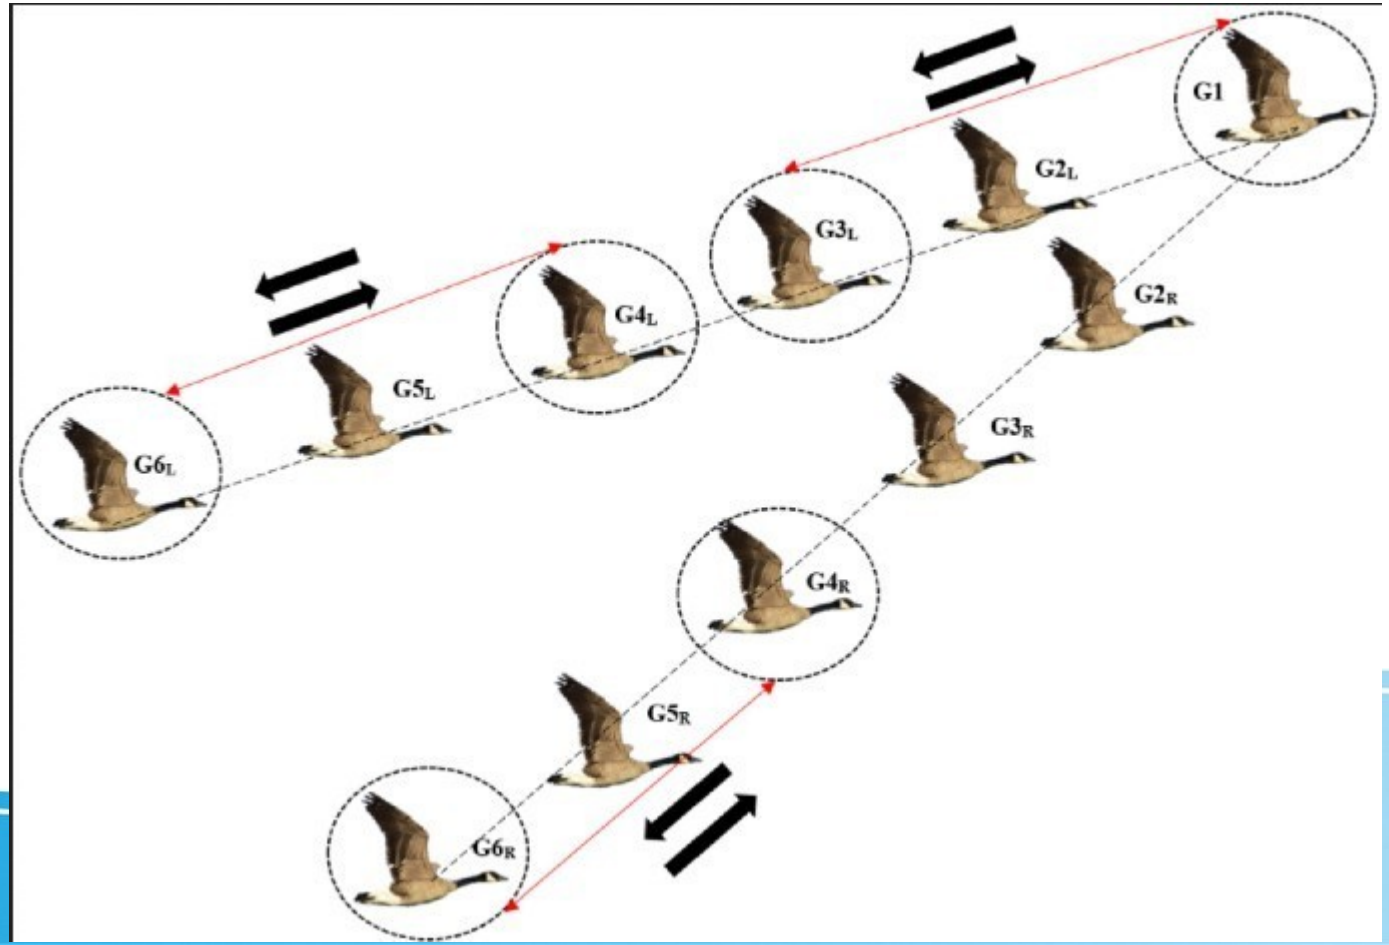
# Importance of Teamwork

Goose Teamwork

# 1. When geese fly together, each goose provides additional lift and reduces air resistance for the goose flying behind it.

# 2. Geese rotate leadership

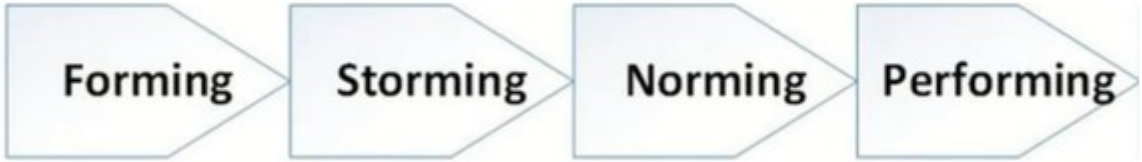


Gees Help
Eachother

Coming together is a **beginning**,
staying together is **progress**,
and working together is **success**.

*- Henry Ford*

# ***Stages of teamwork***



# Forming

In this stage the team is formed which is based on the project requirements .

In this the people are selected from different departments who has skills to do that project.

In this stage the personal information of all team members is taken including skills and  experience .

In this stage the orientation of project is given
 by project manager by describing  the goals of project.

## Storming

In this stage the group members sit together and give their ideas and opinions on project.

In this stage the conflict may arise between the members because everyone wants to do the easy task and these issues are immediately solved by project manager.

## ***Norming***

- **Develop  trust and motivation**
- **Before going to work are eager to work**
- **Discuss  issues with others easily**
- **Team Morale is high and they are eager to work together to achieve commo**n goals

## This stage of Group

- Resolving Of issues
- Setting group polices procedures and values
